SUMMARY

Data Analyst with hands-on experience in SQL, Power BI, Tableau, Python, and Excel, focused on delivering actionable insights through dashboards, KPI reporting, and data analysis. Brings 6+ years of professional experience in banking and operational environments, with strong exposure to financial data, transaction analysis, reconciliation, and performance monitoring. Proven ability to translate complex datasets into clear insights that support business decision-making across finance and operations.

SKILLS

- **Technical Skills:** SQL, Python (Pandas, NumPy, Matplotlib), Excel (Advanced)
- **BI & Visualization:** Power BI, Tableau, Dashboard & KPI Development
- **Analytics:** Data Cleaning & Wrangling, EDA, Financial & Operational Reporting
- **Domain:** Banking & ATM Operations Data Analysis, Cash Management & Monitoring

PORTFOLIO PROJECTS

Bank Cash Reconciliation & Vault Cash Automation (Excel):

Designed and implemented an automated cash reconciliation and vault balance management system using advanced Excel formulas and structured data models. Streamlined daily reconciliation processes, reducing manual effort by 70% while significantly improving accuracy and control. Built a dynamic vault cash tracking system that optimized daily cash monitoring and reduced operational workload by 60%. Delivered reliable, repeatable reporting to support data-driven operational decisions.

B&J Biscuit Business Insights Dashboard (Power BI):

Developed an end-to-end Power BI dashboard with revenue, customer, profitability, and geographic insights boosting visibility by 40% and improving profitable segment identification by 12%. Implemented QoQ/MoM/WoW trend analysis, KPI tracking, and interactive slicers, enabling 25% faster data-driven decision-making.

HR Data Analytics Dashboard (Tableau):

Developed an interactive HR Analytics Dashboard using Tableau to analyze workforce metrics such as employee count, attrition rate, age distribution, departmental attrition, and job satisfaction trends. Cleaned and modeled HR data to reveal key insights that support retention strategy and workforce planning. Created intuitive visualizations to help stakeholders identify patterns and make data-driven decisions.

Pizza Hut Sales Analysis (SQL):

Conducted a comprehensive sales performance analysis for Pizza Hut using SQL to extract, clean, and query large transactional datasets. Designed and executed complex SQL queries to uncover sales patterns, product performance, and revenue trends across time and location. Identified key insights to support strategic decision-making and operational improvements. Documented findings in clear reports with actionable recommendations for business growth.

Exploratory Data Analysis for Global Mart Supermarket (Python):

Performed comprehensive exploratory data analysis (EDA) in Python on the Global Mart Supermarket dataset to uncover sales trends, customer behavior, product performance, and regional

variations. Cleaned and transformed raw data using Python (Pandas) to ensure quality and analytical readiness. Created insightful visualizations to reveal key patterns and support data-driven decisionmaking. Documented actionable insights to inform strategic planning and operational improvements.

PROFESSIONAL EXPERIENCE

- **Gravo Trading & Services – Technical Support Engineer | Doha, Qatar | May 2025 – Present:**
 - Analyzed ATM/CDM performance data to maintain 99% network uptime.
 - Built daily performance dashboards to track machine health, faults, and resolution time.
 - Conducted root-cause analysis reducing recurring hardware/software issues by 15%.
 - Collaborated with engineering and operations teams to improve data-driven incident response.
- **Nexus AI Digital – Data Analyst Intern (Online Project-Based) | Pakistan | Oct 2025 – Nov 2025:**
 - Collected, cleaned, and prepared datasets using Python (Pandas, NumPy) and SQL.
 - Performed exploratory data analysis to identify trends and anomalies.
 - Built and evaluated predictive models using Scikit-learn.
 - Created dashboards and visual reports using Power BI and Tableau.
- **QNB Group – Cash Operation Supervisor | Doha, Qatar | Jul 2019 – Apr 2025:**
 - Oversaw the daily reconciliation of high-volume transaction data exceeding QAR 200 million, ensuring 100% accuracy across diverse financial streams and ATM networks.
 - Developed and delivered daily performance reports for senior management, translating complex operational metrics into actionable insights to improve service efficiency.
 - Managed data entry and validation for 580+ banking units (ATMs/ITMs), maintaining quality control over financial records and corporate client deposits.
 - Spearheaded investigations into operational discrepancies, utilizing data auditing to identify systemic errors, and refine internal workflows.
 - Streamlined logistical data for a 33-person team, optimizing Trip Planning and cash movement schedules through data-driven resource allocation.
 - Controlled the end-to-end documentation and filing of financial transactions, ensuring all digital and physical records remained audit-ready and compliant with bank standards.

EDUCATION & CERTIFICATIONS

Bachelor's in Computer Science — International Islamic University Islamabad Pakistan | 2013–2019
Data Analytics & Business Intelligence — DigiSkills Pakistan | Aug-Nov 2025
Google Data Analytics Certificate — Google/Coursera | November-2025
Advanced Microsoft Excel — Alpha Training Center Doha, Qatar | July- 2025
Microsoft Power BI & AI — Exodus Expert, Brazil | 16- January 2026

ACHIEVEMENTS

- Full scholarship for Bachelor's degree from National ICT R&D Fund Government of Pakistan
- Letter of Appreciation issued by Al Sraiya Security Services (SSS) upon successful completion of roll out for 5th edition of QAR.

LANGUAGE

- **English:** Full Professional Proficiency (Reading, Writing, Speaking)
- **Arabic:** Professional Reading/Writing & Elementary Speaking
